To,
Dr. Ashish Indani

Acknowledgment Note

Medical devices today demand a seamless integration of engineering, clinical science, regulation, and innovation. This book brings these diverse dimensions together in a structured and practical manner. Dr. Ashish Indani has created a valuable resource that bridges the gap between theory and real-world application, making complex concepts accessible to medical device companies, researchers, entrepreneurs, and policymakers.

As India advances toward becoming a global leader in medical technology, such comprehensive works will play a pivotal role in strengthening knowledge, fostering innovation, and building regulatory excellence. By demystifying clinical research in medical devices, this book will not only support industry stakeholders but also contribute to patient safety and global credibility of Indian innovations.

I congratulate Dr. Indani for this significant contribution and believe his work will serve as a trusted reference across the medical device ecosystem.

Thanks & Regards,

Rajiv Nath
